

Dynamic Maintenance

CCm™ M

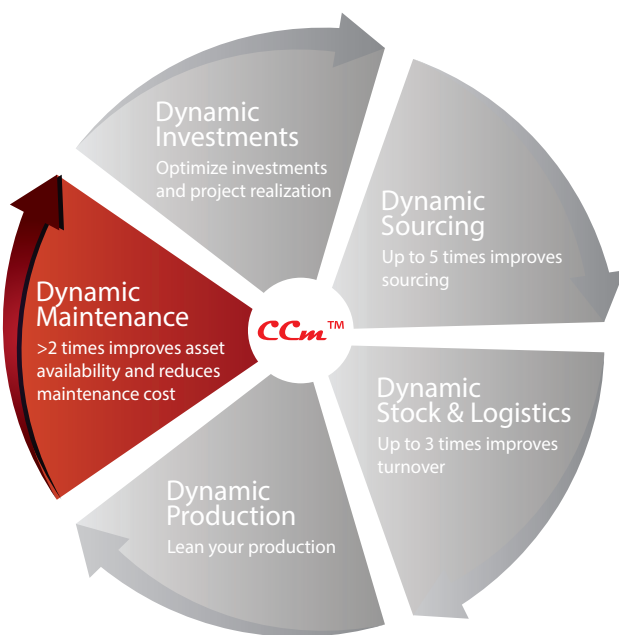

Central Control & Management System

Not appropriated maintained assets may cause unexpected breaks of your production, revenue loss and increase the cost. Mismatch between maintenance and production plan may do the same.

CCm™ M Dynamic Maintenance balances asset maintenance and production realization, ensures delivery and optimize resource engagement and cost.

CCm™ M Dynamic Maintenance - Ensures asset availability and optimize resources

Synchronize, schedule and optimize maintenance activities with production demands.

Dynamic Maintenance

Ensures asset availability

>2 times improves asset availability

IMPROVED ASSET-INVENTORY MANAGEMENT

CCm™ M has standard asset management features. New dimension developed within CCm™ M is P&L statements per asset. CCm™ M monitors maintenance cost per asset, compare it with productivity value and evaluate with depreciated value in ERP system. On such a way automatically warns responsible when P&L becomes negative.

VENDOR CONTRACT, SLA & WARRANTY MANAGEMENT

Vendors are valuable partner in business and a part of your business process. CCm™ M monitors Vendor contracts and SLA's dynamically on every service and per each WO. It takes care about financial and time contract expiration, proper annexing and new contracting offering asset performance and vendor evaluation data instantly

AUTOMATED MAINTENANCE PROCESSES

Proper maintenance saves for production. CCm™ M plans preventive maintenance and estimate corrective actions based on vendor specification and historical data per asset. On such a way it forecast and reserves human, material and spare resources. Preventive WO's are triggered automatically from asset scheduled maintenance time sheet.

BENEFITS OF INTEGRATION

CCm™ M module can be easily integrated with other system including monitoring, device alarm management, ERP systems and Asset Management Systems and Document Management Systems (DMS). It has already developed interfaces for integration with majority of ERP systems such as SAP, Oracle, Navision, DMS system.
